- A. Lemonheads - 2 weeks in Australia. **** - but I'm biased, 'cause it's my favorite band. Often corny, childish, but when backed by the music it all makes sense.
- B. Make Up - Blue is Beautiful. **** wonderful documentary of the premier "Gospel, Yeah, Yeah" band. Demonstrates their difficulty in finding sanctuary from prosecution by the invisible forces that oppress them.
- C. Disney's The Little Mermaid ** Classic groundbreaking film but honestly - it's for girls.

I'm glad you liked California, Ottodave. My nephews are fine. Ok. so that letter had nothing to do with my comic but no one wrote to me about my comic, so, yeah. If you would like your letter published send it to the address on the opposite side of this page.
